

SYLLABUS — International Dental Implantology Training (IDIT)

Live-Patient Implant Course — Santo Domingo, Dominican Republic

Host University: Universidad Odontológica Dominicana (UOD) — university dedicated exclusively to dentistry.

Format: Hands-on, mentor-led. **Two dentists per chair** (you rotate surgeon/assistant).

Levels: Level 1 — **30 implants guaranteed** · Level 2 — **7 lateral sinus lifts guaranteed.**

Official UOD Certificate of Completion.

Hotel (included): Embassy Suites by Hilton Santo Domingo (Naco) — modern all-suite property in a safe, central district; breakfast included; **daily private shuttle** between hotel and UOD; round-trip airport transfers.

Why IDIT (Program Snapshot)

- **Guaranteed surgical volume:** 30 implants (L1) · 7 lateral sinus lifts (L2), delivered inside a university clinic with reliable case flow.
- **University setting:** modern operatories, on-site CBCT/digital X-ray, strict sterilization, bilingual staff.
- **Approvals & credentials:** live-patient training at UOD; Official UOD Certificate of Completion.
- **Mentor model:** two-per-chair coaching and feedback, all week.
- **Post-course support:** **3-month online mentorship** (case reviews + Q&A).

Who This Is For

Licensed dentists seeking structured, safe, outcomes-driven implant training.

- **Level 1 (Beginner):** basic implantology **theory certificate required**; comfortable with routine extractions and suturing.
- **Level 2 (Advanced):** theory certificate **plus** experience (~**50+ implants** or IDIT Level 1 graduate).

No theory certificate yet? Complete **HKU — “Implant Dentistry” (Coursera)** and upload your certificate with registration (opens in new tab).

Learning Objectives & Competencies

By week's end you will be able to:

- Plan with X-rays/CBCT and execute safe, reproducible surgical protocols.
 - **Level 1:** single/multi-unit placements; immediate when indicated; socket preservation; **basic GBR**; atraumatic extraction; flap design; suturing; postop care.
 - **Level 2: lateral-window sinus augmentation** (membrane management, graft placement), ridge split/expansion when indicated, **horizontal GBR with membranes**; manage complications; tension-free closure.
-

Curriculum by Level

Level 1 — Beginner (30 Implants Guaranteed)

- 30 primary-surgeon placements (guaranteed) + assist on additional cases.
- Core skills: asepsis, incision/flap design, osteotomy sequence, primary stability/torque, suturing, postoperative care.
- Indications: healed ridges, selected immediate cases, socket grafting, **basic GBR**.

Level 2 — Advanced (7 Lateral Sinus Lifts Guaranteed)

- 7 lateral-window sinus lifts under step-by-step mentorship; place implants simultaneously when indicated.
 - Advanced topics: ridge split/expansion; **horizontal GBR with membranes**; intra-op complication management; closure without tension. (*Blocks/meshes: not part of this course.*)
-

Week at a Glance

- **Saturday:** Arrivals (airport pickup). Hotel check-in — Embassy Suites (Naco).
 - **Sunday (AM):** Guided Colonial Zone tour.
 - **Sunday (PM):** Orientation, welcome event, safety briefing, short lectures.
 - **Mon–Fri (~8:00–17:00):** Morning case review (X-rays/CBCT) → full-day live surgeries (**two-per-chair rotation**) → debrief.
 - **Friday evening:** Gala Dinner & Certificate Ceremony.
 - **Saturday:** Departures (airport transfers).
-
